

## Thick measure instrument

Easy measuring of the thickness

Cheap thick measure instrument with 10mm indication range through engraving at measuring bolt.

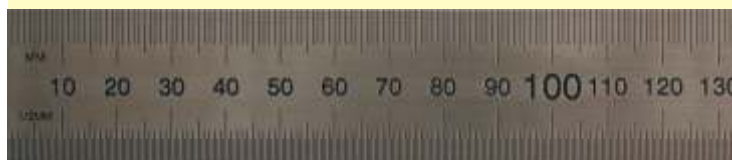

High-quality with 10mm range per revolution.

These thick measure instruments have a handle-depth of 50 mm and a reading of 0,1 mm.

Range	Ø-Scanning plate	10 mm indication	Art.-No.	Price
50 mm	10 mm	Engraving	S360	98,00 €
50 mm	30 mm	Engraving	S361	98,00 €
80 mm	10 mm	Engraving	S362	159,00 €
80 mm	30 mm	Engraving	S363	159,00 €
50 mm	10 mm	Range per revolution	S350	159,00 €
50 mm	30 mm	Range per revolution	S351	159,00 €

## Stainless Steel measuring stick

Clear readable, permanently etched scales.

These measuring sticks are made of high-quality stainless steel. The matt-finished surface is glare-free readable. Scaling: Upper edge mm, Bottom edge 1/2 mm.

Scaling	Dimension	Weight	Tolerance	Art.-No.	Price
150 mm	170 x 14,7 x 0,6 mm	15 g	0,05 mm	B101	1,00 €
200 mm	226 x 20 x 0,6 mm	35 g	0,07 mm	B102	1,50 €
300 mm	334 x 23,7 x 1 mm	65 g	0,09 mm	B103	2,00 €
400 mm	427 x 23,7 x 1 mm	85 g	0,11 mm	B104	2,50 €
500 mm	534 x 28,5 x 1,2 mm	145 g	0,13 mm	B105	3,50 €
600 mm	638 x 28,5 x 1,2 mm	175 g	0,15 mm	B106	4,00 €
1.000 mm	1043 x 35 x 1,2 mm	355 g	0,23 mm	B110	7,50 €
1.500 mm	1568 x 39 x 2 mm	966 g	0,24 mm	B115	37,00 €

## Digital caliper DIN862

XXL-Display with 10mm high digits

Article	Art.-No.	Price
150 mm*	A402	34,90 €
300 mm*	A405	98,00 €
500 mm	A406	298,00 €
1000 mm	A407	598,00 €
PC-Interface	A403	119,00 €

- Accuracy 0,01 mm by DIN 862
- Switchable between INCH and MM
- Depth measure and interior measure
- Zero on every position
- Transportation case

## Lightweight measuring wheel

Top quality for demanding persons!

Counter up to 9.999,9m

Folded only 49 cm

- Made of high-quality plastic
- Measuring range up to 9.999,0 m
- Weight only 1,9 Kg
- Large wheel diameter: 318,5 mm
- Pistol handle with integrated stop-button.
- Counter with zero position
- Counter driven by non-slip toothed belt.
- Low rolling resistance due to maintenance-free ball bearing.

Lightweight measuring wheel  
Art.-No. E800 €108,00

## Lightweight measure wheel

Good quality for a good price!

- Measuring range up to 9.999,0 m
- Weight only 1,6 Kg
- Large wheel diameter: 318,5 mm
- Pistol handle with integrated stop-button.
- Counter with zero position
- Practical handle
- Delivery inclusive bag

Folded only 49 cm

Delivery with bag

Lightweight Measuring Wheel  
Art.-No. E802 €69,00

## Aluminum test wedge

To detect Unevenness

Upper picture: The test wedge is made of aluminium, with graduation from 1 to 20 mm engraved on the surface. Length 121 mm.

Art.-No. S600 €22,90

Lower picture: test wedge with 0.1mm steps, scale from 0,5mm to 11mm. Length without handle is 130mm.

Art.-No. S610 €49,00

For glass thickness measurements

## Glas-O-Meter

The glass-o-metre is suitable for the overall thickness measurement of built-in glass or dual-pane windows. A thickness of up to 110 mm can be measured. In addition, an optical glass thickness.

Art.-No. S310 €52,00
