

Dovetail Bevel

Perfect for furniture builders, teaching and renovating.

Easy scribing of all kinds of dovetails

The adjustable dovetail bevel makes exact scribing of dovetails an easy task. The blade has an inclination of 1:8 and is adjustable in breadth from 6 to 40 mm. This stainless steel dovetail bevel is especially suitable for scribing on slopes or for funnels and ornamental dovetails. A practical aid for

restorers, trainees and friends of classical corner joints.

Dovetail bevel
Art.-No. S200 €15,90

Bevels

Made of varnished beechwood, zinc-dipped steel or walnut stock with bras fitting.

Varnished beechwood bevel with slotted hole in the blade

Length	Art.-No.	Euro

30 cm	A230	16,50

Square set

The square set is for every worker and every job. It consists of the angle template and the angle pro.

In the practical wooden case is enough space for both products: the angle template and the angle pro.

The angle template to make easie a template.

Angle pro for measure and scribing

Two products in one wooden case: The angle template Art.-No. T510 (detailed description on page 18), and the angle pro Art.-No. W455 (de-

tailed description on page 20).

Square set
Art.-No. T511 €98,00

Analog Angle gauge

Art.-No. D102 €29,00

- Length 48 cm
- Horizontal spirit level
- Vertical spirit level
- Resolution 1°
- Measure area 0° to 180°
- Analog display

Digital angle gauge XL

In three different length up to 100 cm.

D110: length of blade 50 cm

Performance level

- Zero level is stored
- Horizontal and vertical spirit level.

Specification

Blade length	500, 750, 1000 mm
Measure area	0° bis 185°
Accuracy	0,2°
Resolution	0,1°
Battery	1 x 9VE-Bloc

Blade length	Art.-No.	Euro
50 cm	D110	168,00
75 cm	D117	195,00
100 cm	D120	224,00

With huge display
