

Laser target board (red)

Can be used with rotary lasers, line lasers or point lasers

The target plate makes it easier to measure at greater distances as the incident laser beam is better reflected, thus increasing visibility.

For rotation lasers, line lasers or point lasers with red laser diode

With magnetic holder for attachment to carriers

Features

- With magnetic holder for attachment to carriers
- Easy to read due to cm and inch graduation
- For rotation lasers, line lasers or point lasers with red laser diode

Specifications

Warranty / Months	24
Dimensions	100 x 70 mm
EAN	4012589492004
