

Multifunctional adapter

Magnetic adapter for line lasers or dot lasers with 1/4" thread.

Leveling devices with a 1/4" thread can be attached to a tripod with a 5/8" thread using this adapter. This allows line lasers or point lasers to be attached to an elevator tripod, or you can simply attach the adapter to a profile, steel beam or the nearest steel railing.

Tracking of laser lines and laser points.

Adapter from 1/4" to 5/8" thread.

With two strong magnets
