

Hedue WA1 tilt adapter

For mapping inclinations with line lasers up to 90°

The angle adapter is suitable for mounting on a tripod to display inclinations of up to 90° with a line laser. Thanks to the freewheel, the adapter can be easily swiveled through 360° without interference. The quick clamp allows slopes and inclinations to be displayed with ease. For optimum positioning, the adapter has a passage for a plumb beam.

With quick clamp

With swivelling head

graduation in 5° steps

Features

- With quick clamp
- Passage for an optical plumb beam
- With swivelling head
- Universally applicable
- graduation in 5° steps
