

Flange steel square 500 mm

Flanges can be precisely aligned using the flange brackets. The brackets are made of steel, the surface is ground and fully galvanized.

This flange steel square is a **precise alignment tool** for the **assembly of flange connections** in pipeline and steel construction. It enables the **exact right-angled positioning of flanges** on pipe ends, connections or components. This reliably prevents distortion, leaks and angular errors during assembly.

Manufactured from high-quality steel and cleanly machined, the flange steel square impresses with its **dimensional stability, dimensional accuracy and durability**. The precisely manufactured legs ensure precise control of the flange position.

Rust protected by durable galvanization

Exaktes Ausrichten von Flanschplatten am Rohrende.

Features

- **Rust protected by durable galvanization**
- **Exaktes Ausrichten von Flanschplatten am Rohrende.**

Specifications

Dimensions	500 x 500 x 5 mm
Flange width	125 x 70 mm
Warranty / Months	24
EAN	4012589656055
