

Measuring wheel hedue MR1

Tilt-proof measuring wheel for measuring small to medium measuring distances.

An ideal measuring wheel for short distances. The twin wheels provide stable and tilt-proof guidance. The meter is driven by a gear rod and is therefore more reliable than the usual belt drive.

The telescopic rod with handle can be infinitely adjusted to the desired length.

**handle height adjustable by
telescopic pull-out**

Tilt resistant due to twin wheels

Features

- **Reliable drive of the meter via a gear rod.**
- **handle height adjustable by telescopic pull-out**
- **Tilt resistant due to twin wheels**

Specifications

Measuring range	999,99 m
Reading	1 cm
Measurement accuracy	0,08 %
Wheel diameter	99,1 mm
Weight	0,53 kg
Warranty / Months	24
EAN	4012589698048
