

laser detector

Working outdoors and enlarging the working range of line lasers by displaying the laser source.

Extend the working range of your line laser. Finally you can work with your line laser outdoors and you are no longer dependent on the visibility of the laser beam. Ideal for the hedue M-I, M-II, L1 and M3 line lasers. The precise adjustment prevents malfunctions caused by the reception of external light sources.

Reception between near and far range selectable.

Attachment to measuring sticks with the universal holder.
