

Hedue PL2 positioning laser with red laser line

Freely focusable positioning laser with line optics and 50 mW power

The positioning laser simplifies the alignment of workpieces on machines or work tables. Power is supplied via a power supply unit. The laser is protected against overvoltage. The freely focusable optics allow it to be mounted at any distance from the object.

With line optics

The housing is electrically insulated

Freely focusable

Features

- With line optics
- Freely focusable
- Power supply unit with high noise immunity
- Surge/spike protection against overvoltage
- The housing is electrically insulated

Power supply unit with high noise immunity

Specifications

Weight	70 g
Warranty / Months	24
Dimensions	80 x 20 mm
Line length/mounting distance	2,20 m / 1 m
Line width	1 mm
Laser class	3R
Laser Diode	635 nm
Laserfarbe	rot
Lifetime of the laser diode in hours	10.000 h
Performance	50 mW
IP protection class	IP54
Power plug	Typ C

Power supply
EAN

5 V
4012589763203

Scope of Delivery

- Positioning laser PL2
- Power supply unit for positioning laser PL2
- Without holder
