

Hedue PL2 positioning laser with green laser line

Freely focusable positioning laser with line optics and 30 mW power

The positioning laser simplifies the alignment of workpieces on machines or work tables. Power is supplied via a power supply unit. The laser is protected against overvoltage. The freely focusable optics allow it to be mounted at any distance from the object.

With line optics

Surge/spike protection against overvoltage

The housing is electrically insulated

Features

- With line optics
- Freely focusable
- Better visualization of the laser line indoors due to the green laser diode.
- Power supply unit with high noise immunity
- Surge/spike protection against overvoltage
- The housing is electrically insulated

Freely focusable

Power supply unit with high noise immunity

Specifications

Weight	70 g
Warranty / Months	24
Dimensions	80 x 20 mm
Line length/mounting distance	2,50 m / 1 m
Line width	1 mm
Laser class	3R
Laser Diode	520 nm
Laserfarbe	grün
Lifetime of the laser diode in hours	10.000 h
Performance	30 mW
IP protection class	IP54

Power plug
Power supply

Typ C
5 V

EAN

4012589763227

Scope of Delivery

- Positioning laser PL2
- Power supply unit for positioning laser PL2
- Without holder
