

LevelBox

For absolute and relative measurements for aligning saw blades

With the hedue Level Box you can measure relative and absolute inclinations in a matter of seconds. Both parameters are shown simultaneously on the adjustable display. This ultra-compact clinometer should not be missing from any mobile circular saw or cross-cut saw. The position of the machine table can be easily defined as the zero point. Using the magnetic holder, the level box can be conveniently attached to the saw blade to align it precisely with the machine table.

With magnet

For absolute and relative measurements

Features

- For absolute and relative measurements
- Any position can be stored as zero point
- With magnet
- Has an easy to use calibration program
- Easy to read display

Specifications

Dimensions	5,6 x 6 x 3,3 cm
Measuring range	180°
Measurement accuracy	0,2°
Reading	0,1°
Type of battery	AAA
Number of batteries	2
IP protection class	IP40
Warranty / Months	24
EAN	4012589775251

Scope of Delivery

- Batteries Alkaline
- QuickstArt
