

Carpenter's square hedue ZY 800 mm with mm scale and marking holes SB (blue)

Seamless carpenter's square made of hardened steel with bright blue powder coating

The seamless carpenter's square is made of hardened steel. Thanks to the bright blue powder coating, the mm scale on the long leg can be read without glare.

The carpenter's square is used in the production and finishing of timber joints. Components and add-on parts can be precisely aligned. The tool is also suitable for marking out and measuring.

Features

- Made of hardened steel
- Millimetre scale on both sides of the long leg
- With marking holes
